Vinayji is a thinker, philosopher, author, management Guru and the Founder and Managing Trustee of Wisdom Foundation. Vinayji's spiritual quest and fervour for self-transformation started at the early age of 16. His teachings are supported by over three decades of full-time study and research on ancient wisdom and its practical application to life. His in-depth understanding, unique interactive style and lucid explanation, translates subtle philosophic themes into valuable lessons in applied philosophy. Vinayji's tireless work has captivated the minds of people and inspired them to commit to a higher purpose.

Vinayji promotes higher values through public discourses, wisdom retreats, modules on self- management for educational institutions, seminars and in-house programs for premier corporates.
